ASCRS PROGRAM

2023 ASCRS ANNUAL MEETING

Featuring ASCRS Subspecialty Day

ASCRS' Premier Event
Education • Innovation • Connections

ASCRS PROGRAM GENERAL INFORMATION

Instructional Courses

ASCRS will offer Instructional Courses Friday through Monday. Courses are 90-minute instructional sessions that include time for interactive discussion among the instructors and audience. Each of the planned 88 courses is based on one of more than 35 clinical categories/topics. Registration to the ASCRS Annual Meeting is required to attend Instructional Courses.

Scientific Paper Sessions

ASCRS Scientific Paper Sessions will be held Saturday through Monday. Each session is based on one of more than 35 clinical categories/topics and will include up to 15 paper presentations based on accepted abstracts submitted by attendees of the ASCRS Annual Meeting. Each session is 90 minutes in length. At the end of each session, the moderator and panelists will confer to select the Best Paper of Session winner. Meeting registration is required to attend Scientific Paper Sessions at the ASCRS Annual Meeting.

Scientific Films

ASCRS Scientific Films will be available for viewing in the Education Hub during the ASCRS Annual Meeting and on the ASCRS website year-round. The 41st ASCRS Film Festival will be held during the 2023 ASCRS Annual Meeting. Winning films are showcased at the ASCRS Annual Meeting during the Film Festival ceremony. Submitted films are judged, and awards are given to the top films in each category with an overall grand prize winner. Award-winning films are also celebrated for their innovation and educational value throughout the year in ASCRS publications, on ASCRS CME 24/7, and at other ophthalmology meetings.

Roundtable Discussions

The ASCRS Roundtable Discussions will be held Saturday and Sunday in the Exhibit Hall. Attendees can engage with a faculty member and other attendees in a small group setting to discuss various anterior segment surgery topics. Roundtable Discussions are non-CME.

Electronic Posters

ASCRS Electronic Posters will be available for viewing in the Education Hub during the ASCRS Annual Meeting and on the ASCRS website year-round. The authors of Electronic Posters selected for an award will be given the opportunity

to present their poster live at the meeting in a session moderated by the poster judges. Meeting registration is required for all lead/presenting poster authors.

Glaucoma/Retina/Pediatric Poster Presentations:

Saturday, May 6, 9:30–10:30 a.m.

Keratorefractive Poster Presentations:

Saturday, May 6, 3:00–4:00 p.m.

Cornea Poster Presentations:

Sunday, May 7, 1:00–2:00 p.m.

Cataract Poster Presentations:

Sunday, May 7, 3:00–4:00 p.m.

Ophthalmic Photographers' Society (OPS)

ASCRS and the Ophthalmic Photographers' Society (OPS) will co-sponsor an exhibit of high-quality ophthalmic images demonstrating superior imaging techniques at the ASCRS Annual Meeting. OPS represents members who perform imaging of all structures of the eye using highly specialized equipment in order to increase the level of patient care and help to advance the science and practice of ophthalmology. The photo selection process is judged by ophthalmologists and OPS member photographers. Registration is required to attend the ASCRS Annual Meeting if you've submitted a photograph to the OPS call for submissions.

- Describe updates in surgical cornea—management of Fuchs dystrophy, posterior lamellar keratoplasty updates, keratoprosthesis, and what is coming.
- Discuss office-based corneal disease management, to include the management of keratoconus, corneal collagen crosslinking, herpes eye disease, and infectious keratitis.
- Examine current research related to the etiology and treatment of ocular surface diseases.
- Recognize current issues affecting global eye health and eye banking.
- Summarize strategies to identify and efficiently manage patients with ocular surface disease, dry eye disease, and surface neoplasias.

ASCRS Glaucoma Day

Target Audience

Practicing ophthalmologists who care for patients with glaucoma-related conditions.

Educational Objectives

- Effectively evaluate current and new diagnostic testing modalities to assist in the early diagnosis of the glaucoma patient and glaucoma suspect as well as disease progression.
- Make treatment decisions using evidence-based recommendations regarding the use of medical and laser therapies for the treatment of glaucoma.
- Evaluate best phacoemulsification treatment options and considerations for patients with complex, pre-existing, and advanced glaucoma.
- Discuss recent and emerging microinvasive glaucoma surgical (MIGS) options.

- Integrate pearls to improve glaucoma surgical outcomes.
- Implement strategies to manage glaucoma surgical outcomes.

ASCRS Refractive Day

Target Audience

This educational activity has been designed for anterior segment surgeons and comprehensive ophthalmologists.

Educational Objectives

- Discuss skills needed during preoperative assessment for insightful patient selection and effective patient counseling in order to ensure patient satisfaction.
- Demonstrate how to approach patients with varied personalities and postoperative outcomes to increase their understanding, expectations, and satisfaction with their refractive procedure.
- Compare and contrast corneal refractive surgery options, to include LASIK, PRK, and SMILE.
- Summarize new technology and pharmacologic options for refractive surgery.

Satellite CME Programs: Up and Coming Glaucoma Procedure: Almost Ready for Prime Time

Accreditation Statement

The American Society of Cataract and Refractive Surgery is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. ASCRS takes responsibility for the content, quality, and scientific integrity of the CME activity.

Designation Statement

The American Society of Cataract and Refractive Surgery designates “Up and Coming Glaucoma Procedures: Almost Ready for Prime Time” for a maximum of 1.0 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

ASCRS PROGRAM EDUCATION CREDITS

Educational Objectives

- Describe and compare new and emerging options in glaucoma procedures.
- Differentiate between the current and upcoming approaches to glaucoma treatment.

Satellite CME Programs: Mastering the Mysteries of Lid Margin Disease – Your Questions Answered!

Accreditation Statement

The American Society of Cataract and Refractive Surgery is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. ASCRS takes responsibility for the content, quality, and scientific integrity of the CME activity.

Designation Statement

The American Society of Cataract and Refractive Surgery designates "Mastering the Mysteries of Lid Margin Disease – Your Questions Answered!" for a maximum of 1.0 AMA PRA Category 1 Credit™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Educational Objectives

At the conclusion of this session, attendees will be able to:

- Recognize the signs and symptoms of lid margin disease and how to differentiate it from dry eye and other ocular surface diseases.
- Distinguish the differences among anterior blepharitis, posterior blepharitis, and Demodex blepharitis.
- Describe the impact lid margin disease has on cataract and refractive surgery.
- Identify current treatments and devices and what will be available in the future.

Satellite CME Programs: Bring Your Own Case ... Glaucoma Style!

Accreditation Statement

The American Society of Cataract and Refractive Surgery is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. ASCRS takes responsibility for the content, quality, and scientific integrity of the CME activity.

Designation Statement

The American Society of Cataract and Refractive Surgery designates "Bring Your Own Case ... Glaucoma Style!" for a maximum of 1.0 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Educational Objectives

At the conclusion of this session, attendees will be able to:

- Describe the current available MIGS surgical options, including those that address the trabecular meshwork, the canal of Schlemm, and the subconjunctival outflow pathway.
- Review tips and surgical pearls for delivering excellent patient outcomes using MIGS with cataract surgery for glaucoma patients.

ASCRS PROGRAM EDUCATION CREDITS

Disclosure of Financial Interest

All faculty members are required to disclose whether they have any financial interest (or lack thereof) from the past 24 months with an ineligible company whose primary business is producing, marketing, selling, reselling, or distributing healthcare products or services consumed by, or used on, patients. Faculty members are also required to disclose such information verbally and on their first slide. ASCRS considers presenting authors, not co-authors, to be in control of the educational content. As a professional courtesy, ASCRS acknowledges co-authors and all people contributing to the research, regardless of CME control of the live presentation of that content. Though they are acknowledged, co-authors do not have control of the CME content, and their disclosures are not published or resolved.

The intent of this disclosure is not to disqualify anyone from participating but to provide the Program Committee with information so they can design and implement a balanced, independent, and scientific educational activity. The Financial Interest Index provides information to attendees so they can make their own judgment regarding the interest or relationship and the materials presented.

All of the relevant financial relationships have been mitigated, ascrs.confex.com/ascrs/23am/meetingapp.cgi/ModulePeopleIndex/0.

Presenter Disclosures

It is an ASCRS requirement that all presenters disclose on the first slide and verbally at the beginning of any presentation whether they have any relevant financial interests from the past 24 months. Presenters are expected to give a fair and balanced presentation.

Control of Content

ASCRS considers the following to be in control of CME content:

- Planners, presenters, moderators, and panelists for general sessions and symposia
- Lead instructors and co-instructors for instructional courses
- Lead authors/presenters of scientific papers
- Lead authors of scientific posters
- Lead creators/presenters of scientific films
- Leaders of expert roundtable sessions

Notice About Off-Label Use Presentations

The ASCRS ASOA Annual Meeting may include presentations on drugs or devices or uses of drugs or devices that may not have been approved by the Food and Drug Administration (FDA) or have been approved by the FDA for specific uses only. The FDA has stated that it is the responsibility of the physician to determine the FDA clearance status of each drug or device he or she wishes to use in clinical practice.

ASCRS is committed to the free exchange of medical education. Inclusion of any presentation in this program, including presentations of off-label uses, does not imply an endorsement by ASCRS of the uses, products, or techniques presented.

CME Credit Questions

Attendees can claim credits onsite at the Education Hub stations located in the Ballroom 6 Lobby, Ballroom 20 Lobby, Sails Pavilion, and the ASOA Networking Lounge.

Send questions on CME credit claiming to cme@ascrs.org.

ASCRS PROGRAM EDUCATION CREDITS

SESSION I: ASCRS/ AGS Joint Symposium

**Refractive Considerations in Glaucoma Patients—
Optimizing Outcomes and Quality of Life**

Co-Moderators: Sameh Mosead, MD, Craig Chaya, MD

Panel: Kavitha Sivaraman, MD, Austin Fox, MD,
Christine Larsen, MD, Elizabeth Martin, MD

8:00–8:04 a.m.

Welcome remarks

Leon Herndon Jr., MD, Nathan Radcliffe, MD

8:04–8:12 a.m.

Refractive impact of topical meds

Kavitha Sivaraman, MD

8:13–8:18 a.m.

Panel discussion

8:18–8:26 a.m.

Contact lens management after glaucoma surgery

Austin Fox, MD

8:27–8:32 a.m.

Panel discussion

8:32–8:40 a.m.

Advanced technology IOLs, femto laser and the glaucoma patient

Christine Larsen, MD

8:41–8:46 a.m.

Panel discussion

8:46–8:54 a.m.

Refractive goals in combined or sequential phaco/glaucoma surgery

Elizabeth Martin, MD

8:55–9:00 a.m.

Panel discussion

9:00–10:15 a.m.

SESSION II: Glaukomtecken

This session will highlight how to correctly employ a variety of OCT approaches in clinical practice. It will also cover fundamental and modern/advanced concepts in visual field interpretation.

Co-Moderators: Arsham Sheybani, MD, Nathan Radcliffe, MD

Panel: Monica Ertel, MD, Sanjay Asrani, MD, Lauren Blieden, MD,
Jason Bacharach, MD, Robert Weinreb, MD

PART I: Tried and True Diagnostics

9:00–9:08 a.m.

Visual field/visual field artifact

Monica Ertel, MD

9:09–9:17 a.m.

OCT/artifact

Sanjay Asrani, MD

9:18–9:26 a.m.

Anterior segment OCT

Lauren Blieden, MD

ASCRS GLAUCOMA DAY

9:27–9:42 a.m.

Panel discussion/Q&A

PART 2: Stepping up your game

9:43–9:51 a.m.

Next level visual field detection techniques

Jason Bacharach, MD

9:52–10:00 a.m.

OCTA

Robert Weinreb, MD

10:01–10:15 a.m.

Panel discussion/Q&A

10:15–10:45 a.m.

Break with exhibitors

10:45 a.m.–12:00 p.m.

SESSION III: Medications, Lasers, & Lifestyle

Strategies to treat glaucoma from lifestyle modifications to medication use to laser therapy will be covered. The session will also focus on the well-being of patients and surgeons to diminish risks over time.

Moderator: Deborah Ristvedt, DO

Panel: Brian Shafer, MD, Sarah Van Tassel, MD, Andrew Camp, MD, Brian Francis, MD, Yasemin Sozeri, MD, Simon Law, MD, Deepinder Dhaliwal, MD

PART 1: Medications

10:45–10:53 a.m.

Rookies, veterans, and recruits: update on meds, sustained drug delivery, and what is coming down the pipeline

Brian Shafer, MD

10:54–11:02 a.m.

Strategic thinking: incorporating medications after MIGS

Sarah Van Tassel, MD

11:03–11:11 a.m.

Clear shot: Optimizing the surface in glaucoma patients

Andrew Camp, MD

PART 2: Lasers

11:12–11:20 a.m.

Laser focus: How to successfully use micropulse and ECP in practice

Brian Francis, MD

11:21–11:29 a.m.

Under the lights: SLT as first line, bilateral treatment, and update on DSLT

Yasemin Sozeri, MD

PART 3: Lifestyle

11:30–11:38 a.m.

Eat, sleep, breathe glaucoma: how nutrition, mental health, and positioning affect glaucoma

Simon Law, MD

ASCRS GLAUCOMA DAY

11:39–11:47 a.m.

In it for the long haul: ways to improve ergonomics through strength, posture, and position

Deepinder Dhaliwal, MD

11:48 a.m.–12:00 p.m.

Panel discussion/Q&A

12:00–1:00 p.m.

Lunch

1:00–2:10 p.m.

SESSION IV: Surgical Spotlight

Co-Moderators: Davinder Grover, MD, MPH, David Crandall, MD

Panel: Kuldev Singh, MD, MPH, Mary Qiu, MD, Sahar Bedrood, MD, PhD, Robert Noecker, MD, MBA, Inder Paul Singh, MD, Paul Harasymowycz, MD, FRCSC

What procedure would you have?

1:00–1:04 p.m.

Case presentations

Davinder Grover, MD, MPH, David Crandall, MD

1:04–1:12 p.m.

Cases response

Kuldev Singh, MD, MPH

1:13–1:21 p.m.

Cases response

Mary Qiu, MD

1:22–1:30 p.m.

Cases response

Sahar Bedrood, MD, PhD

1:31–1:36 p.m.

Panel discussion/Q&A

Red flags/when to refer

1:36–1:44 p.m.

Managing a trab that someone else did

Robert Noecker, MD, MBA

1:45–1:53 p.m.

How do you manage tube patients?

Inder Paul Singh, MD

1:54–2:02 p.m.

Stent repositioning – when to refer after angle surgery

Paul Harasymowycz, FRCSC, MD

2:02–2:09 p.m.

Panel discussion/Q&A

ASCRS GLAUCOMA DAY

2:10–2:15 p.m.

SESSION V: MIGS Reimbursement and Government Relations Update

Speaker: Parag Parekh, MD

2:10–2:15 p.m.

MIGS reimbursement and Government Relations update

Parag Parekh, MD

2:15–2:45 p.m.

Break with exhibitors

2:45–3:15 p.m.

SESSION VI: Stephen A. Obstbaum, MD, Honored Lecture

Speaker: Ike Ahmed, MD

2:45–2:50 p.m.

Introduction

Nathan Radcliffe, MD

2:50–3:10 p.m.

Interventional glaucoma: Have we reached a tipping point?

Ike Ahmed, MD

3:10–3:15 p.m.

Award presentation

Leon Herndon Jr., MD

3:15–3:45 p.m.

SESSION VII: 13th Annual Video Session: Complications and a Ray of Hope

Moderator: Manjool Shah, MD

Panel: Leon Herndon Jr., MD, Ang Li, MD, Mary Qiu, MD, Ari Leshno, MD, Aakriti Shukla, MD

3:15–3:17 p.m.

Introductory remarks

Manjool Shah, MD

3:17–3:21 p.m.

Complicated case video #1

Leon Herndon Jr., MD

3:22–3:26 p.m.

Complicated case video #2

Ang Li, MD

3:27–3:31 p.m.

Complicated case video #3

Mary Qiu, MD

3:32–3:36 p.m.

Complicated case video #4

Ari Leshno, MD, Aakriti Shukla, MD

3:37–3:40 p.m.

Audience vote: best video

3:40–3:42 p.m.

Award presentation

Manjool Shah, MD

3:42–3:45 p.m.

Closing remarks

ASCRS REFRACTIVE DAY

ASCRS REFRACTIVE DAY 2023

Sponsored by the ASCRS Refractive
Surgery Clinical Committee

Friday, May 5, 2023, 8:00 a.m.–3:45 p.m. PT

San Diego Convention Center, Room 6A

Improving Your EQ to Boost Your Patients' IQ

Refractive Day will focus on how developing your EQ (emotional intelligence) can compliment your patients' IQ (image quality) to optimize their experience with refractive surgery. In addition to maximizing visual outcomes with new surgical techniques and technology, the ability to refine and improve patient assessment and counseling skills—both preoperatively and postoperatively—helps to ensure that patient expectations are met and exceeded. Case-based learning, expert panel discussions, role playing, and didactic presentations will be integrated with audience participation to help surgeons improve both EQ and IQ.

ASCRS REFRACTIVE DAY

8:00–10:00 a.m.

SESSION I: Preoperative

Moderator: Daniel Chang, MD

Panelists: John Cason, MD, Preeya Gupta, MD

Realities of Refractive Surgical Options

8:00–8:05 a.m.

Welcome and intro

Daniel Chang, MD

8:05–8:20 a.m.

40s and frightened

Marguerite McDonald, MD

8:20–8:35 a.m.

50s and fabulous

Rex Hamilton, MD

8:35–8:50 a.m.

60s and savvy

Sumit "Sam" Garg, MD

8:50–9:00 a.m.

Discussion/conclusion

Personality-Guided Decision Making in Refractive Surgery

9:00–9:10 a.m.

The personality biopsy and why we all need to be experts

Preeya Gupta, MD, John Cason, MD

9:10–9:25 a.m.

Type A/perfectionist patient

Andrew Kao, MD

9:25–9:40 a.m.

Indecisive patient

Nandini Venkateswaran, MD

9:40–9:55 a.m.

Complacent patient

Tal Raviv, MD

9:55–10:00 a.m.

Discussion/conclusion

10:00–10:20 a.m.

Break with exhibitors

10:20 a.m.–12:00 p.m.

SESSION II: Corneal Refractive

Moderators: Kathryn Hatch, MD, Marcony Santhiago, MD

Panelists: Pooja Khamar, MD, Neda Shamie, MD

Preop Talk

10:20–10:30 a.m.

The importance of what to say and what patients hear

Vance Thompson, MD

ASCRS REFRACTIVE DAY

Decision Making

10:30–10:40 a.m.

LASIK, SMILE or PRK: how do you decide?
Key parameters when deciding between the techniques

Marcony Santhiago, MD

10:40–10:50 a.m.

Incorporating SMILE into your practice

Kathryn Hatch, MD

10:50–11:00 a.m.

Is there a patient where refractive lens exchange is the first option?

Audrey Talley Rostov, MD

11:00–11:10 a.m.

Discussion with panelists

- Ectasia risk
- Dry eye status
- Occupational decision

When It Doesn't Go Well: What To Do

11:10–11:20 a.m.

Does literature support the association of excimer laser with CXL as a safer procedure?

J. Bradley Randleman, MD

11:20–11:30 a.m.

Topo-guided enhancement after laser vision correction: when do we use this technology?

Roberto Pineda II, MD

11:30–11:40 a.m.

Role of losartan for haze after PRK: rationale and how to use it

Lycia Pedral Sampaio, MD

11:40–11:50 a.m.

SMILE complications and what not to do

Ashvin Agarwal, MD

11:50 a.m.–12:00 p.m.

Discussion with panelists

- How the panelists handle an unhappy patient?
- Technically and emotionally

12:00–1:00 p.m.

Lunch

1:00–2:00 p.m.

SESSION III: New Technologies

Moderators: Jennifer Loh, MD, William Wiley, MD

1:00–1:02 p.m.

Introduction

Jennifer Loh, MD, William Wiley, MD

1:02–1:10 p.m.

EVO for low myopia

Erik Mertens, MD

ASCRS REFRACTIVE DAY

1:10–1:19 p.m.

LAL for patients who desire presbyopia correction

Neda Shamie, MD

1:19–1:28 p.m.

Incorporating presbyopia drops into your practice

Steven Dell, MD

- Patient selection, retina scan, and incorporation into your practice

1:28–1:37 p.m.

IC-8 for complex corneas

Robert Edward Ang, MD

1:37–1:46 p.m.

Improvements in presbyopic IOLs

George Waring IV, MD

1:46–1:55 p.m.

Segmented bifocal: a new presbyopic IOL option

Thomas Harvey, MD

1:55–2:00 p.m.

Discussion/conclusion

2:00–2:20 p.m.

Break with exhibitors

2:20–3:20 p.m.

SESSION IV: Postoperative

Moderator: Cathleen McCabe, MD, Eric Donnenfeld, MD

Panelists: Audrey Talley Rostov, MD, Roger Zaldivar, MD

Postoperative Case Scenarios

2:20–2:40 p.m.

First eye premium IOL, not convinced wants the same for second eye

Blake Williamson, MD

2:40–3:00 p.m.

Love/hate relationship – post-procedure dry eye, unmet expectations

Deepinder Dhaliwal, MD

3:00–3:20 p.m.

Unhappy with vision – undiagnosed preop conditions (missed diagnosis vs. second opinion)

Zaina Al-Mohtaseb, MD

3:20–3:45 p.m.

SESSION V: Steinert Lecture

3:20–3:30 p.m.

DOS DIGITAL DAY

**DIGITAL
OPHTHALMIC
SOCIETY**

Friday, May 5, 2023, 8:00 a.m.– 3:45 p.m. PT

San Diego Convention Center, Room 6D

Digital Day, sponsored by the Digital Ophthalmic Society (DOS), will be centered around novel, technology-driven solutions with functional clinical integration. It will take place in conjunction with ASCRS Subspecialty Day. All registrants for ASCRS Subspecialty Day will have access to Digital Day programming.

The ophthalmic world is now moving at an unparalleled and unprecedented speed, and Digital Day will identify the essentials to provide surgeons with advanced topic lectures, protocol development, and practice education. This program will include lectures, case studies, panel discussions, and audience Q&A on advancements in ophthalmic surgery, including artificial intelligence, telemedicine, precision medicine and the metaverse, digital visualization, surgical guidance, and other digital health solutions. Digital Day will also feature industry spotlight sessions focusing on patient-centered eco-systems, data governance, ownership, and standardization. David Rhew, MD, Microsoft Global Chief Medical Officer and Vice President of Healthcare, Commercial, will give the keynote address.

This program is non-CME.

SESSION I: The Future of and Machine Learning in Ophthalmology

Moderators: Oliver Findl, MD, Theodore Leng, MD

8:00–8:02 a.m.

Opening remarks

John Kitchens, MD, Eric Rosenberg, DO

8:02–8:08 a.m.

Machine Learning Models for Dry Eyes Diagnosis Using Real-World Clinical Data

Karl Stonecipher, MD

8:08–8:14 a.m.

Artificial intelligence formulas for intraocular lens power calculation in short eyes

Douglas Koch, MD

8:14–8:20 a.m.

AI-based and constants-free IOL power calculation and associated methods for performance evaluation

Li Wang, MD

8:20–8:26 a.m.

Development of a novel AI tool to help surgeons choose the best IOL formula for any eye

Mark Lobanoff, MD

ASCRS SUBSPECIALTY DAY

DOS DIGITAL DAY

8:26–8:36 a.m.

Panel discussion

8:36–8:42 a.m.

Predicting vision outcomes in cataract surgery with machine learning

Shravanthi Reddy, PhD

8:42–8:48 a.m.

A framework for AI-based surgical guidance in ophthalmic surgery

Yannek Leiderman, MD

8:48–8:54 a.m.

AI application and research from the field in LMIC

Hunter Cherwek, MD

8:54–9:00 a.m.

Artificial intelligence in ophthalmic imaging

Brian Fernandez, MD

9:00–9:10 a.m.

Panel discussion

9:10–9:16 a.m.

Using open AI and natural language processing (NLP) for workup and evaluation of ophthalmic diseases

Gurpal Viridi, MD

9:16–9:22 a.m.

Automated hydroxychloroquine retinopathy screening using machine learning

Katherine Talcott, MD

9:22–9:28 a.m.

Prediction of imminent conversion to neovascular age-related macular degeneration using deep learning and 3D optical coherence tomography volumes

Alvin Liu, MD

9:28–9:34 a.m.

Machine learning to predict visual acuity following an open globe injury

Keir Johnson, MD

9:34–9:44 a.m.

Panel discussion

9:45–10:10 a.m.

2023 ASOA ANNUAL MEETING

In Conjunction with ASCRS

Comprehensive and Essential Practice Management
Education for All Members of the Practice

ASOA PROGRAM GENERAL INFORMATION

ASOA empowers ophthalmic leaders to elevate the business of ophthalmology through education, innovation, support, and collaboration. This year, ASOA offers more than 70 educational courses covering an array of topics essential to effective practice management. These topics include coding and billing, leadership and strategic management, human resources, technology, marketing, business operations, and many other strategies for successful practice management. This program lists courses by day, time, and knowledge pathway, allowing attendees to easily navigate the programming options available within each time block.

Handouts

Course handouts for the ASOA Annual Meeting are provided via the ASCRS ASOA Meeting app. Printing of handouts will not be available onsite.

Flagged Courses

Select ASOA Practice Management Courses have been identified as being especially relevant for the following categories and are marked as such:

MD Business Essentials MDBE

ASOA courses recommended for physicians that provide essential business management education.

ASOA Essentials Essentials

ASOA courses recommended for all skill levels. These courses provide a foundation in the fundamentals of ophthalmic practice management.

Advanced Admin Advanced

ASOA courses recommended for those with 10+ years of experience looking to further their professional education.

Mid-Level Manager MLM

ASOA courses recommended for those who are currently, or seeking to become, mid-level managers.

ABC Endorsed ABC

ASOA courses endorsed by the Administrator Beginners Circle (ABC). These courses have been identified as the best content for attendees with 4 or fewer years of practice management experience.

All ASOA practice management courses are designated for COE, AAPC, and CME credit.

ASOA GENERAL SESSIONS

FRIDAY, MAY 5 | 1:30–5:00 p.m.

Leadership Day

Betsy Allen-Manning

We are operating in a different workplace than before, where people don't want to work, leaders are burnt out, and employees are leaving in droves. Today's leaders need up-to-date strategies to keep employees happy, make people feel valued, create work-life balance, and inspire employee longevity. This interactive presentation provides a blueprint for becoming a more effective leader in today's marketplace. You will get insights into how forward-thinking companies build an attractive culture with strong values, how to attract and retain talent, create a sense of purpose beyond the paycheck, and sustain growth by preparing staff for future leadership roles.

SATURDAY, MAY 6 | 8:30–10:00 a.m.

YOU Management: Strategies to Avoid Burnout, Boost Resilience, and Accelerate Success

Colette Carlson

Regardless of your title and role, people experience everyday stressors while they are expected to stay agile through constant change. In today's world, people are required to exceed expectations and produce more in less time with fewer resources, all while staying positive and engaged with colleagues and customers. New challenges have collapsed the boundaries between work and home, leaving people juggling opposing demands for time, energy, and attention. It's no surprise that even with the best of intentions, leaders and teams feel stressed out, disconnected, and emotionally exhausted. Enough! It's time for YOU Management!

MONDAY, MAY 8 | 8:30–10:00 a.m.

Tactical Takeaways

Leslie Riley

Setting the right goals can help trigger new behaviors, assist us in maintaining focus, and sustain momentum once we begin making changes. So how do we do it, especially when nothing that used to work for us seems to be working anymore? In this hands-on session, participants will reset their understanding of how to set new goals by having a series of curated conversations that help them understand what is really happening inside organizations and teams across the industry today. If you're ready to discover how to question old ideas about goal setting, harness the power of your unique perspective, and create the kind of goals that will help you and your team thrive, this session is for you!

TECHNICIANS & NURSES PROGRAM

2023 TECHNICIANS & NURSES PROGRAM

Sponsored by the International Joint Commission on
Allied Health Personnel in Ophthalmology (IJCAHPO)

TECHNICIANS & NURSES PROGRAM

GENERAL INFORMATION

The International Joint Commission on Allied Health Personnel in Ophthalmology (IJCAHPO) is pleased to sponsor the Technicians & Nurses Program. IJCAHPO is the international certifying agency for allied ophthalmic personnel. Certification is available at three levels: assistant, technician, and medical technologist, along with subspecialty certifications available for surgical assisting, ultrasound biometrist, diagnostic sonographer, scribe certification, and corporate assistant.

For the Technician & Nurses Program, attendees do not register for each course independently. They can choose to attend individual courses from either of the two sessions each day. There are no individual tickets sold for courses; an attendee's badge allows access to any of the courses in this two-track program.

Handouts

A link to available handouts for the Technicians & Nurses Program will be provided to registrants by IJCAHPO.

Continuing Education Credit

All courses in the Technicians & Nurses Program have been approved for IJCAHPO CE credits. Select courses are approved for CA BRN credit. A maximum of 16 IJCAHPO CE credits are available for this in-person program.
